## SOCIO-REHABILITATIVE Residential Psychiatric Facilities

## SERVICE GUIDE

VILLA ADRIANA

VILLANOVA

CASTEL MADAMA

These facilities, accredited by the Regional Health Service, provide voluntary accommodation for adults with psychiatric conditions who require medium-to-long-term hospitalization in a high-level care community setting. Their purpose is to stabilize the condition, provide psychosocial rehabilitation, and manage disabling aspects that cannot be treated at home or in socio-assistential structures.

The socio-rehabilitative facilities help guests stabilize their psychopathological condition, recover basic skills, and develop social and relational abilities, promoting reintegration into the community and family context. They are situated within a normal urban environment to facilitate subsequent social reintegration.

### ACCESS PROCEDURES

As stipulated by the Commissioner's Decree of the Lazio Region 188/2015, admission to the facility can only occur with prior authorization from the Mental Health Center (CSM) of the user's residence. The user must contact the CSM to initiate the procedure and prepare the necessary documentation.

### ADMISSION

**Upon admission, the Guest must provide the following documentation:**

- Authorization from the CSM of residence
- Identity document, Tax Code, and Health Card
- Regional Health Service membership card
- Healthcare ticket exemption card
- Copy of disability certificate (if applicable)

- Copy of the appointment of a guardian/support administrator (if applicable)
- Pharmacological treatment plan and any therapeutic plan
- Legal documentation in the case of patients under compulsory treatment
- Medical records related to any previous hospitalizations
- Socio-Sanitary ISEE Certification – Restricted Household

**At the time of admission, it is necessary that the Guest or, on their behalf, the caregiver – family member – legal representative provides:**

- Medication or prescriptions to cover a minimum of 7 days
- Personal hygiene items
- Comfortable and appropriate day and night clothing, in sufficient quantity to ensure one or more daily changes

### DURATION OF THE PROJECT AND RENEWAL

The duration of the Individual Rehabilitation Plan (PRI) is defined in agreement with the CSM, which, following a preliminary evaluation at least every six months, manages any possible extension of the project.

### FEES

The treatment is fully covered by the Regional Health Service.

### VISITING HOURS

The Rehabilitation Team directly coordinates with family members/friends/acquaintances to arrange visiting times in the facility and any potential therapeutic leave.
